ACTA GEOLOGICA HUNGARICA

Acta Geologica Hungarica

Vol. 28.

Nos 1—2

Workshop in Veszprém, Hungary, 20—25 Nov., 1983

TECTONIC SIGNIFICANCE OF HUNGARIAN MOUNTAINS IN THE ALPINE EDIFICE

Part II

The evolution of the Hungarian Paleogene Basins. *T. Báldi, M. Báldi-Beke* 5
Age and characteristics of the Eocene transgression at Gánt (Vértes Mts. Transdanubia, Hungary). *G. Bignot, A. Blondeau, C. Guernet, M. Perreau, A. Poignant, M. Renard, J. Riveline, E. Dudich, C. Gruas, M. Kázmér, G. Kopek* 29
New data about some Eocene dinocysts of the Dorog Basin (Transdanubia, Hungary). *D. Michoux, L. Rákosi, G. Bignot, G. Lachkar* 49
Tectonic and paleoclimatic aspects of paleomagnetic studies in the Transdanubian Central Mountains. *E. Márton, P. Márton* 59
Permian-Paleogene paleogeography along the eastern part of the Insubric-Periadriatic lineament system: evidence for continental escape of the Bakony-Drauzug unit. *M. Kázmér, S. Kovács* 71
Sedimentary and structural evolution of the Bakony Mountains (Transdanubian Central Range, Hungary): Paleogeographic implications. *A. Galácz, F. Horváth, A. Vörös* 85
Evolution of the flysh basins and continental collision: Irpinian basin (Southern Italy). *T. Pescatore* 101
Subsidence history and tectonics of the Western Adria margin. *F. Horváth, B. D'Argenio* 109

Nos 3—4

In memoriam Elemér Szádeczky-Kardoss. *M. Pécsi, I. Kubovics* 115
On some problems of the interdisciplinary branch of science of geochemistry. *M. Vogl* 121
Neogene volcanism of NE-Hungary. *V. Széky-Fux* 127

PETROLOGY

Mesozoic magmatism of the Transdanubian Mid-Mountains. *I. Kubovics* 141
Polymetamorphic evolution of the South-Hungarian crystalline basement, Pannonian Basin: geothermometric and geobarometric data. *P. Árkai, G. Nagy, G. Dobosi* 165
Genetic petrology of the Sopron crystalline schist sequence. *P. Kisházi, J. Ivancsics* 191

STRATIGRAPHY

Vertebrate biostratigraphy and correlation of the Hungarian Holocene formations. *L. Kordos* 215
Biostratigraphic evaluation of the Upper Paleozoic conodonts, ostracods and holothurian sclerites of the Bükk Mts. Part II: Upper Paleozoic ostracods. *H. Kozur* 225

REPORTS

National report of Hungary for the International Lithosphere Program. Moscow, August, 1984 257
